1,000 KILLED IN HONG KONG HARBOR

Thirty Six Ships Wrecked by Typhoon.

12 SUNK;. SCORE IS STRANDED

One Half of the Native Craft in the Port Was Sunk—Shipping Trade Has Been Completely Paralyzed by the Terrific Storm.

Manila, Sept. 19.—3 p. m.—Latest advices from Hong Kong say that 1,000 lives were lost during the typhoon and that damage to property, public and private, will amount to millions of dollars. Twelve ships were sunk, 24 stranded, seven were damaged and one-half of the native craft in port were sunk.

The shipping trade has been paralyzed through the lack of lighters.

Hong Kong, Sept. 20.—The typhoon which swept this port Tuesday, destroying a great number of vessels and causing much loss of life, was of a terrific nature. It came suddenly and without warning. The observatory had predicted moderate winds. Half an hour after the gun signal had been fired the storm was at its utmost height. It lasted two hours. Most of the damage was wrought on the Kowloon peninsula. The losses are estimated at several million dollars. Over one thousand sampans and junks are missing from Hong Kong alone. Wharves were swept away, and houses collapsed. The military barracks are in ruins.

The steamers Mont Eagle, Fatshan, Keung Shan, Wang Chai, Hermania, Castellano, Takhing, Emma Luyken, Rosario, St. Ava, Pinkhong, Petrarch, Chum Lee, Sexta, Sunon, Chang Sha, Signal and Chinkai Maru are ashore.

The American ship S. P. Hitchcock was also driven ashore as were many of the launches that run about the harbor. The steamer Kwong Chow, Chwong, Sorsogon and Kong Moon were sunk. The steamers Apenrade and Johanne are partly awash. The British reserve sloop Phoenix and a small gunboat, the Ongola, are ashore. The British torpedo boat destroyers Moorhem, Robin and Taku were damaged. The Sir William Jervo was sunk. The French destroyer Fraude was wrecked and the Francisque is ashore. The guns of the Fraude were saved, but three petty officers and one seaman lost their lives. A Chinese revenue cruiser is ashore and several Indo-China and Manila liners narrowly escaped disaster. The harbor is strewn with wreckage thrown on the shore. Hundreds of Chinese boatmen and their families were saved by the bravery of the police and civilians, but several Chinese water-dwellers must have perished, many within short distances of the shore.

The losses in lives and property among the Chinese are appalling.

Wednesday the police stations in Hong Kong were surrounded by Chinese identifying their dead. The families of the Hong Kong boatmen live night and day on the sampans, and thousands of these people are now homeless.

The Chinese take the disaster calmly and show no manifestations of grief.

One launch that was capsized had 130 Chinese on board. They were all drowned.

The river steamer Fashan drifted into collision with the French mail steamer. The entire Chinese crew climbed aboard the French steamer and left Captain Thomas, who was injured, one officer and the engineers to navigate the Fatshan to Shelter Bay, where she was blown ashore.

The bishop of Victoria, Dr. T. J. Hoto, was on his way to visit some neighboring islands when the storm broke, and it is reported that he is missing. His launch has been found in the bottom upwards.

Many valuable steel barges have been lost. Some of them were [illegible] to be refloated.

of the wind and waves were such that some vessels were stranded almost high and dry. The Japanese steamer Sada Maru rescued 60 natives and one English pilot as he was approaching Hong Kong. The English mail steamers Delhi and Poona escaped damage.

The British cruiser Terrible entered port Tuesday morning and reported fine weather up to the harbor.

Sir Matthew Nathan, governor of Hong Kong and the authorities are doing everything possible to render assistance.

Reports of fresh disasters are arriving every hour.

Only a few Europeans are missing.

No reports are on hand to show how the fishing fleets and the ships outside the harbor fared.

Public opinion is incensed at the observatory for not reporting the approach of the typhoon. An inquiry has been demanded. For years past the observatory has been subjected to adverse comment, but on this occasion it is not believed to be blameable.

TAFT AND BACON ARRIVE AT HAVANA

Receive Cuban Secretary on the Steamer Des Moines.

CALLED ON PRESIDENT PALMA

Insurgents Still Making Preparations For Prolonging Campaign, and Are Fitting Out a Steamer With Arms and Ammunition and Men.

Havana, Sept. 20.—The American cruiser Des Molnes with Secretary of War Taft and Assistant Secretary of State Bacon on board arrived here at 7:30 o'clock Wednesday morning. Messrs. Taft and Bacon received Senor O'Farrill, the Cuban secrtary of state, on board.

Later in the emorning Messrs. Taft and Bacon came ashore and proceeded to the palace where they called on President Palma.

New York, Sept. 20. The news received from Havana Tuesday by financial firms in this city was to the effect that there was no hope of the two parties coming to an agreement at present.

The insurgents, it was asserted, would not agree to any terms of peace, except the annulment of the last elections. President Palma would not agree to this conditions. A well known banker said to a Times reporter:

"The insurgents are still making preparation for prolonging the campaign, and are fitting out a steamer with arms, ammunition and men in the Delaware to go on a filibustering expedition to Cuba. The Cuban consul has sent a representative from the consulate to Wilmington to see if he can locate the vessel.

"Mr. Taft will find it a harder task than he imagines to make peace between these hot-headed, southern people who are looking only for their own personal gain, either politically or financially instead of the future welfare of their country. My firm belief based on dispatches received today from reliable agents in Havana, is that President Roosevelt will have to do one of three things—either annex the Island, make it a protectorate, or establish an arbitration board from Washington, to be in power for five years.

"It is a great pity that this trouble should have risen, but the matter has to be dealt with firmly and the government of Cuba put on such a basis that these conditions cannot occur again."

Asked if he thought that cables from Havana were censored by the government officials, the financier said:

"No, I do not say that the messages are censored, but they are read, and many people who criticise the actions of the government unfavorably are clapped into jail. This has made the most locquacious Cubans somewhat thoughtful, not to say reserved."

The steam yacht Alleen, bought from Edwin Gould by the Cuban government, sailed Tuesday for Havana.

The Cuban consul Mr. Macarl, of the Cuban delegation at Washington, hoisted the national colors on the Alleen just before she left the harbor. It was stated that the newly acquired vessel would be used for coast patrol duty. Two machine guns were placed on board.

Bids for Chinese Labor.

Washington, Sept. 20.—Bids for furnishing the Panama canal commission with Chinese labor for canal work will be opened Tuesday. So far inquiries have been received from about 150 firms and individuals regarding specifications but as yet there is no intimation of how many bids will be submitted before the time for opening them arrives. It is expected that most of the bids be submitted in person by representatives of the bidders.

Boilermakers in Convention.

Pittsburg, Pa., Sept. 19.—The eighteenth annual convention of the Boilermaker's union of America and Canada, opened here Tuesday with several hundred delegates in attendance.

MEMBERS MAY BE INDICTED.

Alabama Governor Anxious to See Justice Meted Out.

Montgomery, Ala., Sept. 20—Governor Jelks says that neither the citizens nor the officers of Gadsden had called upon him for aid in the attempt to indict members of the mob which lynched Bunk Richardson, a negro there some months ago. He further said that if aid was required he would grant it in every way possible, though of course he would not go there. That was the business of the courts.

It will be remembered that just after the lynching the governor sent Geo. Bodeker, a detective, of Birmingham, to Gadsden and the latter made a report, which was furnished the officers of the county. The governor said that he understood that the grand jury, now in session, is a very strong one, and he hopes that it will indict the 'murderers" of Richardson and bring them to justice. Some believe, the governor points out, that the offenders in this connection are known to the people of Gadsden.

The case is one in which the governor has taken much interest. The lynching followed closely after the commutation of one of the alleged assaulters of Mrs. Jane Smith, a white woman, murdered near Gadsden, and is supposed to have been revenge for such executive clemency.

Charles Swift Yields to Death.

Atlanta Ga., Sept. 20—Charles H. Swift, the oldest undertaker in Atlanta, is dead at his residence, after an illness of ten days. Mr. Swift came to this city 34 years ago from Syracuse, N. Y., and started to work with the firm of Bloom & Reese. Afterwards he organized the firm of C. H. Swift & Co., on Loyd streets, now Central avenue. At this time T. J. Pollard and E. B. Watson were the partners. He moved again to near where the old police station was located on Pryor street, and had as his partner F. H. Peck. He then moved to the present location of the Swift & Hall company. At one time the firm was Swift, Myers & Hall, the change in name being made after the death of Mr. Myers. The deceased was born in Syracuse, N. Y., in the year 1852. He was well liked by all of his competitors, who are to act as pallbearers at the funeral.

Must Pay Money for Railroad Tickets

Washington, Sept. 20.—The interstate commerce commission has rendered a most important decision in the matter of the applications from various railroads giving administrative construction to certain provisions of new railroad rate laws. Briefly, they hold that with regard to payments for transportation nothing but money can be legally received. With regard to notices of changes in rates the joint rate between two or more connecting railroads is held to be the legal rate and any change requires 60 days' notice. With regard to round trip excursion rates, the commission makes three rulings, the most important being that these may be changed at one day's notice.

Carter Again Before Court.

Chicago, Sept. 20.—The case of Oberlin M. Carter, formerly a captain of engineers in the United States army, was reopened in the federal court before Judge Kohlsaat. The issue in the present hearing is an attempt by the government to recover from Carter $1,000,000 which it is claimed he stole while in charge of the work at Savannah, Ga. Carter today expressed himself as confident that the case will result in his complete vindication.

TRAIN PLUNGES INTO QUICKSAND

Locomotive and Coaches Crash Through Bridge.

RAILROAD BRIDGE COLLAPSED

Only Two Persons Known To Have Been Killed—Ten Others Are More or Less Injured—Passengers Have Thrilling Experience.

King Fisher, Okla, Sept. 20.—While it is believed that several lives were lost when several cars of the Rock Island train No. 12, northbound, went into the Cimarron river at Dover, Okla., because of the collapse of the bridge, no bodies have been recovered, and only two persons on the train are positively known to have perished.

The engine, tender, baggage and mail cars, smoker and day coach of passenger train No. 12, northbound, left the high bridge that spans the Cimarron river and plunged into the current, flanked by treacherous quicksands. The locomotive disappeared from sight almost immediately. The mail and baggage clerks escaped from their cars and swam to the shore.

The train was an hour late and was running at high speed to make up time. The engine driver did not see the condition of the bridge until he was within a few yards, when it was too late to stop. He shouted to his fireman, threw on the air brakes and jumped. He landed on the very edge of the river bank and escaped unhurt. The fireman was less fortunate and sustained severe injuries.

When the engine struck the bridge the whole structure suddenly collapsed, precipitating the engine, smoker and day coach into the water. The two heavy Pullman cars were not pulled in, but remained on the track.

The current whirled the day coach down stream, and lodged it against a sand bank. The occupants were helped out through the doors and windows. The smoking car floated down stream submerged all but the very top. It struck a sand bar in the middle of the river, and four men were seen to clamber through the windows and pulled themselves on top of the car, calling loudly for help, but those on shore were unable to reach them on acount of the high water. While they were begging assistance, a large mass of driftwood swept down, and carried them from their fragile footing.

Three other men jumped through the rear door of the smoker before it sank and struck out for the shore. They were carried down by the current for perhaps a quarter of a mile, when they were pulled out.

Dover, Okla., Sept. 20.—At the scene of the Rock Island wreck no more definite facts concerning the casualties than those already given out were available. Up to 6 o'clock the unknown dead numbered two.

While a number of persons are still missing, it is believed that many will be heard from later. Two of the 16 known injured may die.

Odd Fellows Elect Officers.

Toronto, Ont., Sept. 20.—The sovereign grand lodge of Odd Fellows on Tuesday elected the following officers: Grand Sire, E. J. Conway of Chicago, deputy grand sire, John L. Noden, Nashville, Tenn.; grand secretary, John B. Goodwin, Baltimore; grand treasurer, M. R. Muckle, Philadelphia.

Russian General Assassinated.

Warsaw, Sept. 20.—General Nicholaieff of the artillery, has been assassinated here. He was erroneously thought to be a member of the field courtmartial. General Nicholaieff was walking when he was surrounded by five revolutionists and shot dead. The murderers made their escape.

ANOTHER RESERVE IS ORDERED FOR FLORIDA

Anastasia Island Lands Are Ordered to Be Held in Reserve.

FORESTRY DEPARTMENT ACTIVE

It is the Desire of the National Government to Protect the Forest of the Country, and to This End the Government is Working.

The United States land office in this city has received instructions from the General Land Office at Washington for establishing a new forest reserve in Florida, to be known as the Anastasia Forest Reserve, and have instructed the office here to eliminate this land from the regular list of public lands subject to homestead entry.

It will be remembered that several months ago the General Land Office, through the influence of those engaged in the preservation of forestry, decided to held out a certain number of tracts or acres in Florida, to be used as a forest reserve. This was more particularly important to Florida, since the naval stores and lumber interests were so greatly interested here. Three reserves were exempted from homestead at that time, and now the order comes for the fourth.

The tract to be reserved lies, as its name indicates, on Anastasia Island between the Matanzas river and the Atlantic ocean, near the historic city of St. Augustine. It comprises several thousand acres and is said to be one of the most diversified in the State in the production of forestry, for there grows almost every wood known to this section of the United States.

The question of reserving the forests has interested the people for many years, caused by the rapid destruction of the forests by timbermen. The question, however, did not assume much of a serious side until a year ago, when the matter was taken up with the government, with the result that now Florida has four reserves, which is as great as any other State in proportion to industries affecting timber.

Telephone Service Improved.

Mrs. Ogletree has accepted a position as night operator in the central office of the Southern Bell Telephone Company in this city.

The Southern Bell, of which J. A. Goodwin is the local manager, has just fitted up a most modern office in their exchange, which is equipped with long distance booths. This is one of the advantages seldom enjoyed by a city of the population of Gainesville, as the service is just as good and the conveniences as adequate as any office of this company in the country. The people of Gainesville do and should appreciate the efforts of the Southern Bell to give them as good service as can be had anywhere in the United States

Board of Public Works Lets Contract For Much New Paving.

WORK TO BEGIN AT ONCE

Southern Fuel nnd Supply Company Offered Best and Lowest Bid, and Were Awarded the Contract—Work to Begin as Early as Possible.

The contract was let Thursday by the Board of Public Works for pavement along both sides of East Liberty street to Evans street, East Main street north from Liberty street to Boundary street, and Mechanic street from Arredondo street to Sweetwater branch, which is the main entrance to the grounds of the University High School.

The contract for this paving was let at a meeting of the Board of Public Works, held in the office of H. F. Dutton & Co. There were several bids, the lowest being the Southern Fuel and Supply Company of Jacksonville, the bid of which company being 95 cents per square yard.

Members of the Board of Public Works studied the situation carefully, going into details as regards material, workmanship, etc., in all bids, and came to the conclusion that the Southern Fuel and Supply Company were the lowest and best bidders.

Work will begin on this pavement at once, and will be pushed to completion as rapidly as possible.

She Likes The Sun.

The management of The Sun has received a letter from Mrs Chas. Ellithorp, formerly of this city but now residing at Holly, Mich.

Mrs. Ellithorp encloses the price of subscription, with this remark:

"My time will be out on September 29th, and I do not want to miss a single issue, as The Sun is certainly a welcome visitor at our home, and we do not see how we could with any degree of satisfaction do without it. The Sun is all right, because it is 'chuck full' of good news, the kind of news we love to read."

Mrs. Ellithorp states that herself and the members of her family are enjoying good health in their Northwestern home. That section is becoming rather cool, however, as Jack Frost put in his appearance, she says, on September 1st and the farmers are busy harvesting their crops.

Dr. Finn's Testimony Interesting.

Dr. Thomas Finn of Boonsboro, Mo., who has practiced medicine for 32 years, says he has used every prescription known to the profession for treatment of kidney and bladder diseases, and says he has never found anything so effective in both chronic and acute kidney and bladder trouble as Foley's Kidney Cure. It stops irregularities and builds up the whole system. J. W. McCollum & Co.

ANOTHER BLIND TIGER IS IN THE TOILS

Deputy Sheriff Story "Pulled" an East End Resort Wednesday.

A COLORED MAN THE VICTIM

Cork Elby Was Arrested, and One Hundred Gallons of Wine Were Found on His Premises, It Is Alleged—Could Not Give Bail and Went to Jail.

Another alleged "Blind Tiger" has been routed in Alachua county—and this time it is in a section which has seldom been known for conducting such places

Deputy Sheriff L. E. Story arrived in this city Thursday, having in custody Cork Elby, colored, whom he arrested upon a charge of selling liquor without a license in the vicinity of Earleton.

Officer Story states that he has suspected Elby for some time; that complaint had been made to him, and that finally he decided to make the arrest. He states that when arrested Elby had in his possession one hundred gallons of home-made wine, and that he is quite positive he had been engaged in the business of selling it with a great degree of profit for a long time.

The prisoner was arraigned in Justice Lumpkins' court at Orange Heights, and in default of a bond of $500 was committed to jail. He was brought here and placed in prison, and must await the action of the next term of the circuit court.

MR. GRAHAM PLEASED.

Declares Gainesville One of "The Hustlingest" Cities He Ever Saw.

Editor Sun: Having heard so much favorable comment upon Gainesville and its people from every section of the State before coming here, I expected to find a magnificent town, full of good people—and I was not disappointed. I have been asked by so many my opinion of the city, that I want to ask your indulgence for this opinion in as brief words as I can put it:

Gainesville is a nice city—extremely nice; but I will use a more forceful language with a little more sweet meats. The city deserves it. Lovely Gainesville! Beautiful Gainesville!—and glorious Gainesville!—the county-seat of Alachua here in the "Land of Flowers—Florida—the State which we deem the best. Gainesville is Ocala's fairest sister city, and Ocala is very proud of her sister, Miss Gainesville. The social belles of Ocala often meet in tete-a-tete with the Gainesville belles in the handsome drawing-rooms in this city, and vice versa.

This city, we all know, is built mostly of brick and solidly, and on the square plan with the court house in the center.

The court house—well, I have traveled from Florida to Seattle, and from that city on the Puget Sound to the "City of the Angels"—Los Angeles, California—and I have not seen a court house which would equal Alachua county's court house in this city—that is, I mean I have not seen a court house which would equal this in size or architectural beauty according to the cities visited the size of Gainesville—"nay, nay, Pauline"—nor double the size, nor thrible the size.

Gainesville's mouth fairly watered for that plum, the State University, and she got it, too! Two great buildings now decorate the site on West Liberty, and they are about ready for occupancy. Their doors will open on the 26th, I learn.

The churches in this city are numerous, I find, and they are all filled at all services. We should all love our pastors, and you all do that here. While in the A. C. L. station the other day I noticed a card which had these words written upon it; "Strangers are cordially invited to attend the Epworth League. Meet at 4 p. m. every Sunday." I used to be a Leaguer myself and I always try to get to the meeting on Sunday wherever I chance to be.

You people here in Gainesville have the genuine Western habit in that you are hustlers.

In fact, now, really you Gainesville people cannot help from being the hustlers that you are when that good and peerless paper, The Sun, chines its bright rays in every one of your homes each morning, telling you what is happening and what is going to happen in this city and around the world.

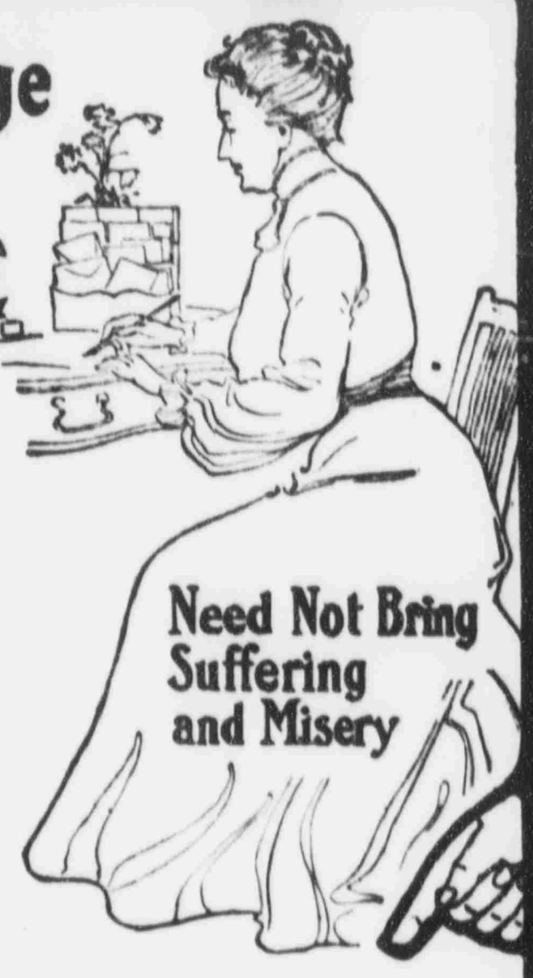
Change of LIFE



Need Not Bring Suffering and Misery

This perfectly natural change in a woman's life is too often accompanied by painful, distressing symptoms due to female troubles and slight irregularities in her delicate organism.

The woman who passes this change without the development of tumors, cancers, or chronic invalidism enters a new field of happiness and usefulness in the domestic circle and in social activity. Her physical system should receive the necessary assistance at this critical period.

Lydia E. Pinkham's Vegetable Compound

is exactly suited to woman's needs at this time. It strengthens and cures all derangements of the female organism, it overcomes the hot flashes and dizzy fainting spells, and all other distressing symptoms.

I Was in Bed for Three Weeks

DEAR MRS. PINKHAM:—I suffered a great deal during Change of Life. For eleven weeks I had hemorrhages and it made me so weak I was in bed for three weeks. I began taking Lydia E. Pinkham's Vegetable Compound, although it was against my doctor's will and I had to hide it. I took it regularly until I had taken five bottles, and it brought me out all right, a perfectly strong, well woman. Any one can tell how healthy I am by looking at my picture, and any one can write to me or my daughter about our wonderful cures.

MRS. F. M. MUSHBUSH, East Chicago, Ind.

The whole secret of safety at this time of life is thorough preparation before the change begins. Fortify the system with a course of Lydia E. Pinkham's Vegetable Compound. This wonderful medicine has carried thousands of women through this danger period.

No such helpful advice to women who are sick can be had anywhere as will be received free by addressing Mrs. Pinkham, Lynn, Mass. Mrs. Pinkham is daughter-in-law of Lydia E. Pinkham, and for twenty-five years under her direction, and since her decease, she has been advising sick women free of charge.

Lydia E. Pinkham's Vegetable Compound Cures Where Others Fail

France Makes Protest.

Tangier, Morocco, Sept 20—The attitude of the sultan and his representatives during disorders at Casa Blanca, Sept. 17, when Cherif Tatlaini, with 250 men, pillaged the French iron works there and poisoned European workmen, wounding several of them, have called for official protests from the French and Belgian ministers to Morocco. These diplomats have notified Mohammed el Torres, the foreign minister, that their government reserves the right to demand indemnity for the pillage of Franco-Belgian establishments.

Several persons in this city pay absolutely no attention to the ordinance prohibiting the riding of bicycles on the sidewalks. They are frequently seen going at break-neck speed, and impudently ring their bells for pedestrians to give them the right of way.

Try to make a few enterprising plans out of your home town and when working for its betterment or speaking well of the town and country remember you are accomplishing all the same by yourself. Don't be content enough to do your monthly duty, preferring fifteen and twenty years. The spirit of enterprise

The Cuban situation should arouse the strenuous times of Roosevelt to a masterly inaction to withdraw the troops to safe ground. The value of property in this section has been greatly enhanced by reason of the city being located in the section of the University, and owners of property in that neighborhood should be reasonable as to their prices of city lots.

The most laughable of the scenes of domestic troubles is often seen in the parlors of the Chicago health department, that while it is being while visiting an asylum is a restaurant, and dining mostly of coffee and rolls. But how about domestic troubles in small towns and the meals when ample supplies of good meat and butter, luscious eggs and milk, sweet cream the year and share the good things that are sent

Are we going to be a race of stoop-shouldered men? One would naturally think so to look over almost any large town, with few exceptions, or glance at the average male human being he meets. The man who walks with an head erect, his shoulders thrown back and his chest extended just as nature intended he should is a rarity and a curiosity about wherever he goes. The average man, and even the gay, the average person you, walks as if he were very tired.

SERMONETTES

More are drowned in the shallows than in the ocean.

Many sell a birthright of privilege to drift along a sunny stream, rather than breast the waves of a rude ocean.

The man who knows the world will never be hopeful, and the man who knows himself will never be despondent.

Americans are not eloquently—but they are masterful. We throw time away as if it were not and as the shore.

A man who wastes his wealth and does not enjoy it is like the beast that carries a load of gold and feeds on straw.

Nothing is more sickly sentimental than the fuss that we make about what we think—that we become like our thoughts.

Really, there is no such thing as failure. Sing your victory in defeat. The rising tides of life will overwhelm your woes.

Confucius was asked what death is. His answer was: "Tell me what life is and I will tell you what death is, for both are equally mysterious."

When your good is evil spoken of, your wishes are crossed, your taste is offended, your advice ridiculed and you take it all in patient, loving silence—that is victory.

Blot out everything disagreeable from yesterday; start out with a clean sheet for today. Write upon it, if for memory's sake alone, those things which are lovely and lovable.

Don't laugh at the man who builds his castles in the air. It may be a vision that is stirring his latent powers. The world's great achievements began with some man's day-dreams.

Say, do you know the kind of fellow who's just to the world's mind? The kind the world can't lose? The kind that folks enthuse over and take off their hats to? Why it's the man who does. He's the fellow! Not the fellow whose grandpa got there; not the fellow who would if he could; not the gentleman who's going to some day; but the man who does, now, today. No sitting around, waiting about him; no looking for something to turn up. No sir! He sails the turn and turns 'em; he takes off his coat and doesn't agree if he starts a little sweat; he doesn't need a big brass-buttoned copper to tell him to move on; he keeps the procession humping to keep up with him; he is hustle from his feet up and from his head down; he is not only in the push, but he is the push—the whole thing, and say, the way he makes things come and business hum is a caution, the way the world takes that fellow on and is good to him makes your heart glad; he's all right, he is; he groups the wheels of progress and helps the world revolve some.

Criticism—Criticism the best element in our growth and development. Even if kept within us it is still up to us to profit by it and should it augment our inner growth we will have no occasion to regret it. Criticism, if kept within us, is a tonic, a stimulant to our energies and virtues. It urges us on to greater efforts and nobler deeds. It urges us to be more than we are. It is up to us to profit by it and should it augment our inner growth we will have no occasion to regret it. Criticism, if kept within us, is a tonic, a stimulant to our energies and virtues. Don't want to keep a friend in suspense—tell him the ultimatum at once. Have your own thoughts and permit her to have hers. Be entertained too much of her in the way of confidence and do not be too aggressive, wanting to know why she does and do the same things you do. If you think your friend's style of dress is not beautiful, do not tell her. You may offend her, because deep in her heart she is convinced that she knows a great deal more about it than you do. Do not find fault with your friend's friend, and do not expect to be the only one owning a corner in her heart. Be a considerate of her feelings as if she were a stranger, and remember that politeness is an every-day garment and not one intended only for high days and holidays. In sum it is all in one sentence, preserve the courtesy of the beginning to save your friendship to the end.

The man who pays no debts and his name may be a blessing or a curse to the community. It depends on what else he does. In making this statement it is to be understood that by the word "debt" is meant the ordinary cash obligation which a man incurs in the transaction of his business. There are men who appear to believe that so long as they are not indebted to their neighbors for goods purchased, or the municipality or the state for the last tax levy, they have discharged their whole duty and nothing more can be asked of them. But in reality a man's duty to his neighbor is limited only by his power to do his neighbor good, and his duty to the community by his ability to be of service to it. The community in which the prevailing statement is, "What do I get out of it?" is one which does not and cannot prosper.

Billy Jones wrote on the blackboard, "Billy Jones can hug the girls better than any boy in the school." The teacher seeing it, called him up. "William, did you write that?" she said. The children waited for Billy to come out, when they began to guy him. "Got a lickin,' didn't you?" "No," said Bill. "Get jawed?" "No." "What did she do?" they asked. "Shan't tell," said Bill, "but it pays to advertise."

CHILD'S AWFUL SKIN HUMOR

Screamed with Pain — Suffering Nearly Broke Parent's Heart — Twelve Years of Misery — Doctor Called Case Incurable — Helped from First, and

SPEEDILY CURED BY CUTICURA REMEDIES

"I wish to inform you that your wonderful Cuticura has put a stop to twelve years of misery I passed with my son. As an infant I noticed on his body a red spot and treated same with different remedies for about five years, but when the spot began to get larger I put him under the care of doctors. Under their treatment the disease spread to four different parts of his body. The longer the doctors treated him the worse it grew. During the day it would get rough and form like scales. At night it would be cracked, inflamed, and badly swollen, with terrible burning and itching. When I think of his suffering, it nearly breaks my heart. His screams could be heard down stairs. The suffering of my son made me full of misery. I had no ambition to work, to eat, nor could I sleep.

"One doctor told me that my son's eczema was incurable and gave it up for a bad job. One evening I saw an article in the paper about the wonderful Cuticura and decided to give it a trial.

"I tell you that Cuticura Ointment is worth its weight in gold; and when I had used the first box of Ointment there was a great improvement, and by the time I had used the second set of Cuticura Soap, Ointment, and Resolvent my child was cured. He is now twelve years old, and his skin is as fine and smooth as silk. (signed) Michael Steinman, 7 Sumner Avenue, Brooklyn, N. Y., April 16, 1905."

President Castro Is Ill.

New York, Sept. 20.—A dispatch from Trinidad states that the critical condition of President Castro is unimproved. His mysterious sequestration continues. President Castro, the dispatch declares, has performed no administrative act in two months. It was on the day of General Castro's return to Caracas from his suburban residence that he caught a cold, which was the beginning of his illness, and which has developed malaria. The disease proved stubborn, and soon the most alarming reports began to circulate. It was said that the president was at the point of death and despite repeated official denials, the report gained such general credence that Caracas dwelt in continuous alarm. It is nowhere denied that despite the adverse criticism of General Castro, his powerful hand preserves peace in Venezuela and that his untimely taking off would plunge Venezuela into civil war.

Starving to Death.

Because her stomach was so weakened by useless drugging that she could not eat, Mrs. Mary H. Walters of St. Clair St., Columbus, O., was literally starving to death. She writes: "My stomach was so weak from useless drugs that I could not eat, and my nerves so wrecked that I could not sleep; and not before I was given up to die was I induced to try Electric Bitters, with the wonderful result that improvement began at once, and a complete cure followed." Best health tonic on earth. 50c. Guaranteed by all druggists.

Disease Curing by Electricity.

Philadelphia, Sept. 20.—Electricity as a means of curing disease, was discussed at the opening session of the sixteenth annual meeting of the Electro Therapeutic association. It was asserted by the various speakers that locomotor ataxia, cancer and chronic diseases of the stomach are daily yielding to this mysterious force, while the absorption of inflamatory matter is an event of every-day occurrence.

HAWKINS CLAIMS AN ALIBI.

Lawyers Argue Case at Gainesville, Georgia.

Gainesville, Ga., Sept 20—Argument of lawyers was the feature of the hearing of Fred Hawkins murder case Wednesday morning. Colonel Howard Thompson, being followed by Colonel H. H. Dean for the defense and Solicitor Charters closed for the state.

Colonel Austin Bell opened argument in behalf of the prosecution on Tuesday afternoon, this being his maiden effort in the superior court. He was followed by Colonel Fletcher M. Johnson for the defense, adjournment for the day being taken at the conclusion of this speech.

Fred Hawkins took the stand in his own behalf Tuesday afternoon. He vigorously denied that he shot Henry Cagle, and declared that he was not at Cagle's house on the night of the tragedy. He said that he had no reason to kill Cagle; did not want to do it, nor did he do it. If he had, he declared, he had many opportunities of doing so, and that too at times when no one would have suspected him of being the one who did it.

He said that he went to the home of Stylus Buffington on the morning of the tragedy before daybreak for the purpose of seeing about the purchase of some stock, and that he was not near Cagle's home at any time during the night of Aug 24.

Hawkins' statement was coherent and was delivered without any apparent hesitation or nervousness.

The defense offered no other testmony, and both the state and defense rested upon the testimony previously offered.

She Found Relief.

Doctors did me no good and I tried Herbine, and three bottles cured me. I can't say too much for Herbine, as it is a wonderful liver medicine. I always have it in the house. Publish where you wish." THE REAL TEST

Of Herpicide Is in Giving It a Thorough Trial.

"There is only one test by which to judge of the efficiency of any article and that is by its ability to do the work which it is intended to do. Many advertisements may look nice and smell nice but the point is—do they eradicate Dandruff and stop falling hair?

No, they do not, but Herpicide does, because it goes to the root of the evil and kills the germ that attacks the papilla from whence the hair gets its life.

Letters from prominent people everywhere are daily proving that Newbro's Herpicide stands the "test of use."

It is a delightful dressing, clear, pure and free from oil or grease.

Several persons in this city pay absolutely no attention to the ordinance prohibiting the riding of bicycles on the sidewalks. They are frequently seen going at break-neck speed, and impudently ring their bells for pedestrians to give them the right of way.

Try to make a live, enterprising place out of your home town, and when working for its institutions or speaking well of the town and country remember you are accomplishing all the more for yourself. Don't be foolish enough to idle away valuable time predicting failures and thereby decrease the value of your property.

The next Legislature should extend the corporate limits of Gainesville in a westerly direction a sufficient distance to take in the University grounds. The value of property in that section has been greatly enhanced by reason of the city being bonded to secure the location of the University, and owners of property in that neighborhood should be required to pay their proportion of city taxes.

The quick lunch habit is the cause of domestic troubles in cities, says the secretary of the Chicago health department—lunch which is bolted while sitting on a stool in a restaurant, consisting mostly of coffee and rolls. But how about domestic troubles in small towns and the country, where ample supplies of good bread and butter, beef-steak, eggs, coffee or milk constitute the meal and where the quick lunch habit does not exist?

Are we going to be a race of stoop-shouldered men? One would naturally think so to look over almost any large crowd, walk down any crowded street, or glance at the average male human being he meets. The man who walks with his head erect, his shoulders thrown back and his chest extended just as nature intended he should, is a rarity and is remarked about wherever he goes. The average man, and more's the pity, the average young man, walks as if he were very tired.

SERMONETTES

More are drowned in the wine-cup than in the ocean.

Many sell a birthright of privilege to drift along a sunny stream, rather than breast the waves of a vast ocean.

The man who knows the world will never be bashful, and the man who knows himself will never be imprudent.

Americans are not niggardly—but they are wasteful. We throw time away as if it were but sand on the shore.

A man who hoards his wealth and does not enjoy it is like the beast that carries a load of gold and feeds on thorns.

Nothing is more surely established than the fact that we are what we think—that we become like our thoughts.

Really, there is no such thing as failure. Sing your victory in defeat. The rising tides of life will overwhelm your cares.

Confucius was asked what death is. His answer was: "Tell me what life is and I will tell you what death is, for both are equally mysterious."

When your good is evil spoken of, your wishes are crossed, your taste is offended, your advice ridiculed, and you take it all in patient, loving silence—that is victory.

Blot out everything disagreeable from yesterday; start out with a clean sheet for today. Write upon it, if for memory's sake alone, those things which are lovely and lovable.

Don't laugh at the man who builds his castles in the air. It may be a vision that is stirring his latent powers. The world's great achievements began with some man's day-dreams.

Say, do you know the kind of fellow who's just to the world's mind? The kind the world can't lose? The kind that folks enthuse over and take off their hats to? Why it's the man-who-does. He's the fellow! Not the fellow whose grandpa got there; not the fellow who would if he could; not the gentleman who's going to some day; but the man-who-does, now, today. No sitting around, waiting, about him; no looking for something to turn up. No sir! He calls the turn and turns 'em; he takes off his coat and doesn't care if he starts a little sweat; he doesn't need a big brass-buttoned copper to tell him to move on; he keeps the procession humping to keep up with him; he is hustle from his feet up and from his head down; he is not only in the push, but he is the push—the whole thing; and say, the way he makes things come and business hum is a caution; the way the world takes that fellow up and is good to him makes your heart glad; he's all right, he is; he greases the wheels of progress and keeps the world spinning round.

Give your children the best education you possibly can. Even if they should not live to profit by it and should disappoint all your hopes, you will have the consciousness of having discharged your duty to them, of having done all in your power to make them good, courageous men and women.

A new swindle is abroad in Missouri, according to the papers. The swindler sells barbed wire fencing stretcher machines. He leaves the machine and forty rods of good fence for trial, requiring the farmer to sign for the return of the stretcher. The farmer signs for $3, which turns out to be $300.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

If you want to keep a friend do not get too intimate with her. Have your own thoughts and permit her to have hers. Do not demand too much of her in the way of confidence and do not be too aggressive, wanting to know why she does not do the same things you do. If you think your friend's style of dress is not beautiful, do not tell her. You only offend her, because deep in her heart she is convinced that she knows a great deal more about it than you do. Do not find fault with your friend's friend, and do not expect to be the only one owning a corner in her heart. Be as considerate of her feelings as if she were a stranger, and remember that politeness is an every-day garment and not one intended only for high days and holidays. To sum it up in one sentence, preserve the courtesy of the beginning to keep your friendship to the end.

The man who pays his debts and his taxes may be a blessing or a curse to the community. It depends on what else he does. In making this statement it is to be understood that by the word "debt" is meant the ordinary cash obligation which a man incurs in the transaction of his business. There are men who appear to believe that so long as they are not indebted to their neighbors for goods purchased, or the municipality or the State for the last tax levy, they have discharged their whole duty and nothing more can be asked of them. But in reality a man's duty to his neighbor is limited only by his power to do his neighbor good, and his duty to the community by his ability to be of service to it. The community in which the prevailing statement is, "What do I get out of it?" is one which does not and cannot prosper.

Billy Jones wrote on the blackboard, "Billy Jones can hug the girls better than any boy in the school." The teacher seeing it, called him up. "William, did you write that?" she said. The children waited for Billy to come out, when they began to guy him. "Got a lickin,' didn't you?" "No," said Bill. "Get jawed?" "No." "What did she do?" they asked. "Shan't tell," said Bill, "but it pays to advertise."

CHILD'S AWFUL SKIN HUMOR

Screamed with Pain — Suffering Nearly Broke Parent's Heart — Twelve Years of Misery — Doctor Called Case Incurable — Helped from First, and

SPEEDILY CURED BY CUTICURA REMEDIES

"I wish to inform you that your wonderful Cuticura has put a stop to twelve years of misery I passed with my son. As an infant I noticed on his body a red spot and treated same with different remedies for about five years, but when the spot began to get larger I put him under the care of doctors. Under their treatment the disease spread to four different parts of his body. The longer the doctors treated him the worse it grew. During the day it would get rough and form like scales. At night it would be cracked, inflamed, and badly swollen, with terrible burning and itching. When I think of his suffering, it nearly breaks my heart. His screams could be heard down stairs. The suffering of my son made me full of misery. I had no ambition to work, to eat, nor could I sleep.

"One doctor told me that my son's eczema was incurable and gave it up for a bad job. One evening I saw an article in the paper about the wonderful Cuticura and decided to give it a trial.

"I tell you that Cuticura Ointment is worth its weight in gold; and when I had used the first box of Ointment there was a great improvement, and by the time I had used the second set of Cuticura Soap, Ointment, and Resolvent my child was cured. He is now twelve years old, and his skin is as fine and smooth as silk. (signed) Michael Steinman, 7 Sumner Avenue, Brooklyn, N. Y., April 16, 1905."

Complete External and Internal Treatment for every Humor, from Pimples to Scrofula, from Infancy to Age, consisting of Cuticura Soap, 25c., Ointment, 50c., Resolvent, 50c. President Castro Is Ill.

New York, Sept. 20.—A dispatch from Trinidad states that the critical condition of President Castro is unimproved. His mysterious sequestration continues. President Castro, the dispatch declares, has performed no administrative act in two months. It was on the day of General Castro's return to Caracas from his suburban residence that he caught a cold, which was the beginning of his illness, and which has developed malaria. The disease proved stubborn, and soon the most alarming reports began to circulate. It was said that the president was at the point of death and despite repeated official denials, the report gained such general credence that Caracas dwelt in continuous alarm. It is nowhere denied that despite the adverse criticism of General Castro, his powerful hand preserves peace in Venezuela and that his untimely taking off would plunge Venezuela into civil war.

Starving to Death.

Because her stomach was so weakened by useless drugging that she could not eat, Mrs. Mary H. Walters of St. Clair St., Columbus, O., was literally starving to death. She writes: "My stomach was so weak from useless drugs that I could not eat, and my nerves so wrecked that I could not sleep; and not before I was given up to die was I indneed to try Electric Bitters, with the wonderful result that improvement began at once, and a complete cure followed." Best health tonic on earth. 50c. Guaranteed by all druggists.

Disease Curing by Electricity.

Philadelphia, Sept. 20.—Electricity as a means of curing disease, was discussed at the opening session of the sixteenth annual meeting of the Electro Therapeutic association. It was asserted by the various speakers that locomotor ataxia, cancer and chronic diseases of the stomach are daily yielding to this mysterious force while the absorption of inflamatory matter is an event of every-day occurrence.

HAWKINS CLAIMS AN ALIBI.

Lawyers Argue Case at Gainesville, Georgia.

Gainesville, Ga., Sept 20 Argument of lawyers was the feature of the hearing of Fred Hawkins murder case Wednesday morning. Colonel Howard Thompson, being followed by Colonel H. H. Dean for the defense and Solicitor Charters closed for the state.

Colonel Austin Bell opened argument in behalf of the prosecution on Tuesday afternoon, this being his maiden effort in the superior court. He was followed by Colonel Fletcher M Johnson for the defense, adjournment for the day being taken at the conclusion of this speech.

Fred Hawkins took the stand in his own behalf Tuesday afternoon. He vigorously denied that he shot Henry Cagle, and declared that he was not at Cagle's house on the night of the tragedy. He said that he had no reason to kill Cagle; did not want to do it, nor did he do it. If he had, he declared, he had many opportunities of doing so, and that to at times when no one would have suspected him of being the one who did it.

He said that he went to the home of Stylus Buffington on the morning of the tragedy before daybreak for the purpose of seeing about the purchase of some stock, and that he was not near Cagle's home at any time during the night of Aug 24.

Hawkins' statement was clearcut and was delivered without any apparent hesitation or nervousness.

The defense offered no other testimony, and both the state and defense rested upon the testimony previously offered.

THE REAL TEST

Of Herpicide Is in Giving It a Thorough Trial.

There is only one test by which to judge of the efficiency of any article that is by its ability to do the work it is intended to do. Many cures may look nice and smell nice but the point is—do they eradicate dandruff and stop falling hair?

No, they do not but Herpicide does because it goes to the root of the evil and kills the germ that attacks the papilla from whence the hair gets its life.

Letters from prominent people everywhere are daily proving that Newbro's Herpicide stands the "test of use."

It is a delightful dressing clear pure and free from all oil or grease.

Men Past Sixty In Danger.

More than half of mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostate gland. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rock Port, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years, and after taking two bottles of Foley's Kidney Cure I feel better than I have for twenty years, although I am now 91 years old." J. W. McCollum & Co.

A Rich Man.

Standards of prosperity vary in different parts of the country, but that of Captain Jack is purely local—to himself. The old man came out of his cottage door one morning and discovered some ne'er-do-well neighbors digging clams in the flat in front of his shore.

"Dear me, boys," he quavered in a weak, old voice, "don't dig my clams! There's Abel Wyman over there across the cove; he has ham for breakfast every morning in the year. Go over there and dig his clams, boys."

Churchill Lost Splendid Fight.

Concord, N. H., Sept. 20.—Charles M Floyd, of Manchester, was nominated for governor at the close of the hardest contest ever waged in a republican convention in New Hampshire. Nine ballots were necessary before the choice was made. Winston Churchill, of Cornish, the novelist and leader of the recently organized Lincoln Republican club, of New Hampshire, was Floyd's closest competitor in the final vote, and he retained that position after making a terrific fight from the moment opened until the count showed him to be defeated. The result of the final ballot was: Charles M. Floyd, 408; Winston Churchill, 335; Charles H. Greenleaf, 55; Stephen H. Gale, 12.

The Breath of Life.

It's a significant fact that the strongest animal of its size, the gorilla, also has the largest lungs. Powerful lungs means powerful creatures. How to keep the breathing organs right should be man's chiefest study. Like thousands of others, Mrs. Ora A. Stephens of Port Williams, O., has learned how to do this. She writes: "Three bottles of Dr. King's New Discovery stopped my cough of two years and cured me of what my friends thought consumption. O, it's grand for throat and lung troubles." Guaranteed by all druggists. Price 50c and $1.00. Trial bottle free.

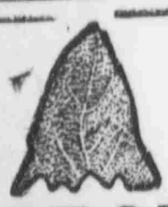
There is real pleasure in chewing the best tobacco grown where the best tobacco grows—in the famous Piedmont country



CHEW WHAT YOU KNOW ABOUT

Only choice selections of this well matured and thoroughly cured tobacco is used in making SCHNAPPS. That's why SCHNAPPS and other of the Reynolds' brands, as shown by the Internal Revenue statistics for a fiscal year, made the wonderful growth of six and one-quarter million pounds, or a net gain of one-third of the entire increased consumption of chewing and smoking tobaccos in the United States.

Schnapps

Evidently, chewers cannot resist the flavor and they cheer SCHNAPPS because SCHNAPPS cheers them more than any other chewing tobacco and every man that chews SCHNAPPS passes the good thing along—one chewer makes other chewers—until the fact is now established that there are many more chewers and pounds of tobacco chewed, to the population, in those States where SCHNAPPS tobacco was first sold than there are in the States where SCHNAPPS has not yet been offered to the trade.

AND KNOW WHAT YOU ARE CHEWING

SCHNAPPS is like a cup of fine Java coffee, sweetened just enough to bring out its natural, stimulating qualities. SCHNAPPS pleases all classes of chewers: the rich, because they do not find a chew that really pleases them better at any price; the poor, because it is more economical than the larger 10c. or 15c. plugs and they get their money's worth of the real snappy, stimulating flavor so appreciated by tobacco lovers. All imitations contain much more sweetening than SCHNAPPS. They are made that way to hide poor tobacco improperly cured.

For the man who chews tobacco for tobacco's sake, there is no chew like SCHNAPPS.

Sold at 50c. per pound in 5c. cuts. Strictly 10c. and 15c. plugs.

UNIVERSITY CELEBRATION.

Citizens Want the First Ceremonies to Transpire on Square.

It is gratifying to see how the citizens, or a number of them, are working in the matter of securing a program for exercises in commemoration of the opening of the University of Florida for the first time in Gainesville. They are working hard for this occasion, and propose with the co-operation of others less active to make the day one which will long be remembered, and one which will go down as a part of the history of the University from its actual beginning, September 26, 1906.

But those who are most active are desirous that the exercises in which they are interested be held on the square. Realizing that the ladies and children are as deeply interested as others, and that, owing to the distance of the University buildings from the square and the inconvenience to many in going there, they feel that these exercises, being of a public nature, should be for the public good.

It is right and proper that exercises should be held at the University grounds, they say, but that should be a separate and distinct demonstration from that which is accorded the students.

It has been suggested that the ladies of the city tender the students a public reception on the evening of either the 26th or 27th, and it is believed that the necessary funds to defray the expenses will be readily subscribed to.

Grape fruit, Smooth Cyenne pineapples, Maiden Blush apples, fancy bananas, New York cabbage, Long Island potatoes—all very fine. Oliver & McKinstry, 'phone 16.

Clerk George Mason of the County Judge's office yesterday issued a marriage license to Clarence Swarm and Margaret A. Day, two well known and prominent young people of High Springs, who will be married within the next day or two. Friends extend congratulations in advance.

Lee Colson, who has been suffering with a lame hand caused by rheumatism for the past two days, is improving, and his uncle, Tax Assessor W. W. Colson, in the office of whom he is employed, hopes he will soon be well enough to permit him to return to his duties. Mr. Colson has now become sufficiently well to drive a horse with one hand, but he is unable to wield the pen.

The pay train, more familiarly known among the employes of the Atlantic Coast Line as the "sugar wagon," passed through the city yesterday, remained an hour, and made the boys happy for a time at least. Being the headquarters of this district there are a number of employes paid off monthly here, which is the means of distributing a large sum of money.

H. S. Thomas, proprietor of the La Matanzas Cigar Factory, left yesterday for Ocala, where he has gone to select tobacco and boxes for the Universidad cigar, which has become famous all over the country. Mr. Thomas makes only one cigar—the Universidad, which sells at five cents, and is hard to beat anywhere—probably because it was the first cigar to be named for the new University of Florida.

Dr. and Mrs. J. H. Alderman are at home again, after a pleasant visit to Lithia Springs and Atlanta, Ga., where Dr. Alderman attended the convention of the National Dental Association. They are pleasantly located at The Oaks, and friends are glad to see them again. Dr. Alderman stated that the National Convention of Dentists was one of the most beneficial and enjoyable that he has visited during all his years of membership with the Association.
